DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Simpson (430,303). Simpson shows a harness for a race horse having a back-engaging tree A with an arched body shaped to fit across a horse's back. The body A having a pair of laterally spaced fork members (unlabeled) projecting downwardly from opposite sides of the arched body to extend down on opposite sides of the horse's body, see figure 2. The fork members capable of being independently flexible and shaped to conform to the horse's back, col. 1, lines 42-44. A girth strap assembly C is attached to the back-engaging tree A and having shaft attachments (between L and N) on opposite sides thereof and below the back-engaging tree for attaching the shafts of a sulky thereto. The fork members having the inner edges resting at least 8 of the relevant vertebrae of the horse's back when in use. The attached sulky (not shown having a pair of laterally spaced forwardly projecting shafts with front end portions attached to the shaft attachments of the harness, see figure 1.

Allowable Subject Matter

Claims 4-6 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Included for further reference on racing harnesses are: Nolen (489,087), Finch (683,742), King (818,260), Proust (5,076,041), Mouzon (5,410,863), Mitchell (4,414,790), Andrews (6,354,247) and Terwilliger (6,698,168).
